JUDGE UMBEL'S CAMPAIGN AUDIT
BEGUN; QUESTIONS FOUGHT HARD.Court Sustains 30 of 33 Objections Made to Questions
Asked Disseminator S. E. Frock.

RULING SEVERE ON INQUISITORS

Court Decides They Must Prove That
Every Illegal Expenditure, If Any
Was Made, Was Done With Knowl-
edge of Judge Umbel.

UNIONTOWN, July 14.—The audit into the campaign expenses of Judge R. E. Umbel, the successful Democratic candidate at the June primary, was taken up before Judge Van Swearingen this morning, but little progress was made owing to the number of objections entered by Attorney E. C. Higbee, representing the defendant. Practically all of these objections were sustained by the court.

That the attorneys who are conducting the inquisition are up against a hard proposition was evidenced immediately upon the first witness being called. He was Henry Bell, a negro, whom Attorney Stevenson said he would prove was paid \$2 in the booth of the Second Ward polling place in Uniontown, in exchange for which he permitted S. E. Frock to mark his ticket. Attorney Higbee objected to the questions propounded to the witness. The objections were sustained and the ruling made that even if such was the case, it would be necessary for the auditors to prove that this was done with the knowledge of Judge Umbel.

Bell was immediately relieved and S. E. Frock summoned. There were 33 objections by Attorney Higbee to the questions asked Frock and all save three, which were unimportant, were sustained by the court.

At one point Frock was answering the questions before Higbee could make his objections.

"Wait a minute, Frock," burst forth the attorney, "you are answering too fast."

That caused the ex-Sheriff to slow down a bit. Frock said he lived in Uniontown and, in response to a question concerning his occupation, said "I deal some." He was asked if he was a member of the Labor Brewing Company and said he was only a director. He admitted receiving from Judge Umbel \$1,050 on June 3.

"Cash or check?" was asked.

This was objected to and the objection sustained. When asked if he got any money prior to June 3 the question was objected to and sustained. When asked if he certified to Judge Umbel that the expenditures had been made in accordance with the law of 1906, Frock answered in the affirmative before Higbee could enter an objection. It was also objected to when the question was put whether Frock incurred any expenses for the campaign after June 3.

Nothing of importance was gleaned from Frock's testimony. Attorney Higbee stated that his objections to the questions were because the questions called for an explanation and were not to prove any facts. Several questions were also objected to because if the expenditures were lawful the questions were immaterial, and if unlawful, it must be proven that Judge Umbel had knowledge of it.

B. F. Sterling was called after Frock had been excused. He admitted spending \$1,750. When asked for a list of the names to whom it was expended, objections were made and sustained. He said that \$230 of the money was spent for transporting voters. When asked if all of it was spent that way, the question was objected to and the objection sustained. Court adjourned until 2 o'clock after Sterling was excused.

John Baker Cooley Rounds Out
Thirty Year's Service With Courier.

Just 30 years ago today John Baker Cooley dropped around at the office of The Keystone Courier to help out Messrs. Snyder & Goodchild, who were running the sheet in those days. Cooley expected to pester around for a day or two and then follow the even tenor of his way along other lines.

It so happened, however, that the fates decreed otherwise and today, 30 years later, finds John still "helping out."

HOME FOR REBECCA FAUSSETT.

Uniontown Merchant Thinks Patriotic
Duty Should Arise.

A prominent merchant of Uniontown has started with a \$10 contribution a fund toward providing a home for Miss Rebecca Faussett, now an inmate of the Fayette county home. He thinks that a suitable home may be found with some mountain family, where the aged lady may spend the remaining years of her life among familiar associations. Miss Faussett is a great granddaughter of Joseph Faussett, who served under General Edward Braddock, and the merchant thinks the patriotic people should not forget his kinsman.

TWO MEN HURT AT
BROWNSVILLE LOCKHarry G. Keffer and Charles Sparks
Struck By Falling Timbers
While at Work.

Harry G. Keffer of Connelldale and Charles Sparks of Scottdale had narrow escapes from being seriously injured yesterday afternoon at Brownsville lock while working on the construction of a new lock. The men were working under the part of the wall when the wood encasing the cement walls of the lock fell as an effort was being made to remove it. Keffer and Sparks were caught in the fall of a heavy plank. The men had been successful in the removal of the boards, but two bolts in the section that caused the accident broke. Keffer's left leg was broken while Sparks sustained a fractured rib and several severe bruises. Frank Rogers, who was working near the top of the wall caught the wire cable of the crane in time to avoid a fall.

The injured men were removed to a house nearby, where they were attended by Dr. Lilley. Keffer was later brought to Connelldale and removed to the Cottage State Hospital. Sparks was removed to the Uniontown Hospital. Keffer is aged 25 years and single.

Tax Reduces Immigration.
Local steamship and immigration offices have already felt very decidedly the dropping off in immigration caused by Commissioner Williams' flat that no newcomer looking \$25 will be allowed to land at New York. The order has resulted in giving the steamship agencies extra work in collecting from friends here of prospective immigrants the necessary \$25, which is forwarded to the steamship offices at New York for presentation to the United States officials at Ellis Island.

WAR CLOUDS GATHER.

Trouble Between Greece and Turkey
Seems Imminent.

SALONICA, July 14.—(Special.)—War between Greece and Turkey will follow, it is declared, over the action of the Turkish government in driving Greeks off the frontier. The entire Third Army Corps has been mobilized, various regiments pouring into this section during several days past.

When the mobilization was completed, the corps, under orders from Constantinople, began clearing all Greek bands from the Turkish frontier. No Greeks were spared. Every one was compelled to shut up store and house and leave immediately. The Turkish commander told the Greeks the reason they were precipitately ordered to leave the frontier was because they were spies.

REORGANIZATION
PLANS ARE TALKED.Chamber of Commerce May
Be Made Effective Here
Again.

ENGINEER HOGG AT THE HELM

Is Prime Mover to Revive Body So
That It Will Help Boom the Town.
Body of Secretary Armstrong to Be
Removed.

A movement is gradually gaining ground to reorganize the Chamber of Commerce and get busy to bring business to Connelldale. J. B. Hogg has been the prime mover in the matter but his enthusiasm is being extended to other quarters. The idea is to put a live man at the head of the Chamber of Commerce, one who will boom the town.

The employment of an experienced commercial man to take charge of the Chamber of Commerce is also being seriously considered. Many business men believe it would be a good investment to get a live man here, a practical man who could interest manufacturing interests in the commanding advantages of the town as a commercial center.

Although efforts have been made looking towards a reorganization of the Chamber of Commerce, which has been without a head since the death of President B. P. Wallace, these have been futile. A final effort is to be made to revive the body which was organized about two years ago with the laudable view of bringing industries to the town.

There is nothing to the report that the surplus left over from the Fourth of July celebration will be devoted to erecting a monument over the grave of the late W. C. Armstrong in Chestnut Hill cemetery. This was learned this morning when it was announced that as soon as she recovers her health, Mrs. Armstrong will have the body removed to Detroit, Mich., where the Armstrong family plot is located. It is denied in some quarters that any thought was ever given the matter of erecting the monument out of the celebration funds.

A number of the contributions were taken with the understanding that the money was to be devoted to no other purpose. Further, it is stated, no steps could be taken towards the erection of a monument until the funeral bill has been paid.

FOREIGN RESIDENTS

Fighting Now Being Under-
Way.

United Press Telegram.

TEHERAN, Persia, July 14.—Foreign residents of Teheran are in grave danger of rebels, balked in their occupation of the city by a few hundred Persian Cossacks entrenched in the central square, and enraged by the furious engagement now going on at the north gate of the city, where a strong force of Royalists from Sultanabad is trying to force an entrance, have demanded of the British and Russian legation an explanation of the flying of the Russian flag above the barricade by Colonel Linkhott.

The flag, it is feared, is more an excuse to cause international complications by precipitating a massacre. The rebel leaders say their followers are being killed by Royalists who are sheltered behind the Russian flag, and commanded by Russian officers.

The matter has been under consideration for some time and Secretary George B. Irwin, of the Independent Coke Producers' Association has been authorized to arrange the affair.

While no details have been completed the picnic will probably be held during August, the time and place to be fixed later. Mr. Irwin will make an effort to have every operator in the two regions attend the outing. Most of the coke works will be shut down for the day, allowing the office forces a deserved vacation. Invitations will be issued in a week or so and a site selected and it is expected the picnic will be the biggest pleasure event of the year with the coke men.

The men were released on payment. They admitted they had been "on a scouting expedition," but for a time refused to pay the \$10 assessed for each of the three animals and the costs of the cases. They finally consented and were released with a warning.

THREW STONE AT BROTHER

Then the Daddy Hurlled a Chair at the
Kid and Family Friendship was
Ruptured—Lad Came into Court Full
of Tears and Promises.

There was quite a scene in police court this morning when Samuel Pizumet, an Italian working on the Baltimore & Ohio railroad as a section hand, brought his son, Frank, and asked to have the lad sent away. The youngster shed copious tears and it took Burgess and Chief Rottler some time before they could get the story from the agitated pair.

According to the father, the boy is 14 years old and unruly. Last week he slammed a stone and hit his younger brother on the foot, whereupon the enraged father slammed a chair at the offending lad and ordered him to go elsewhere.

The boy confesses to being 9 years old and adults throwing the stone, although he did not intend it to hit his brother. He says his father hurled furniture at him and drove him off. This morning the father met the boy along Water street and brought him along to the police station.

Pizumet is a widower. He cooks breakfast for his four boys before going to work each morning and gets supper when he comes home. Chief Rottler advised him to give Frank another chance, which he agreed to.

FIRE DIDN'T SCARE
FOREIGNER; DIDN'T PAYSoaked \$10 for Being Drunk, Disor-
derly and Attempting to
Wreck Bastille.

It didn't faze George Gregor of Leisnering one bit when he was fined \$10 for being drunk, disorderly and attempting, Samsen-like, to tear down the temple of justice in which he was confined over night.

"I no care, I no pay," snapped George when sentence was imposed, so he was led back to the cells for an enforced visit. George is a foreigner arrested yesterday for being drunk. He tore down one of the iron beds in his cell over night and created a Bedlam of noise, disturbing the rest of the other inmates. He denied the charges.

Anton Swantick, an Italian, came here from Ohio yesterday afternoon and took a few drunks, starting for Star Junction, where he has a job waiting for him. The job will wait as Anton was detained 48 hours in the bastille.

Counterfeit at Ohiopele.

OHIOPELE, July 14.—One dollar was taken in by the Ohiopele Postmaster Saturday which proved to be a very important counterfeit coin. United Press Telegram.

ALTOONA, Pa., July 14.—"If you had only listened to me, little woman, we would both have been much happier tonight. God knows that I did not intend to kill you, and if you are in Heaven you still know how much I love you. If this man had never come into our lives, how different it would all have been."

With these words Frank E. McMillen, one of the most respected residents of Greenwood, near here, bade farewell to his wife, whom he had had a short time previously shot to death, accidentally, as he claims, after having found her in the company of another man.

McMillen was arrested on a murder charge. After shooting his wife McMillen attempted to kill McDowell but the man escaped. The bullet entered the woman's left side and penetrated her heart, causing instant death. The woman was one of the most beautiful in this section of the country. McDowell is being held as a material witness.

Nine Women and Two Men Gypsies
Land in the Cooler at Scottdale.

SCOTSDALE, July 14.—Garbed in riotous colors, that made the brightest garments of the foreign population look like a candle-lit beside a spot light, a band of gypsies, mainly of the female sex, visited the town yesterday telling fortunes. They are work on the casting of the events of the future so far as they are concerned themselves for they seemed totally unwitting of the cold fact that their trip to the Mill Town was going to land them in the lockup. But it was even so and after a stir of excitement nine women and two men gypsies were taken in tow by the prophetic police headed by the eminent astrologer Frank McCadden, and aided by the other forecasters of the future, Austin Hyde and William Kennell.

It may have been a scotch-saxing quality about the crowd that indicated to them, where money could be found, but it failed to notify them that they could not get away with it. They went into every business place and office on the streets, and among others the dental parlors of Dr. J. H. Marvin.

His coat was hanging in one room and when he stepped to the next one the work must have been accomplished, for his search of his coat later revealed the absence of a purse containing \$30. The alarm was sent out and the gypsies were rounded up. They were given a hearing and the case was compromised by the return of the money and the payment of all costs.

The gypsies have been camped about the Scottdale "Y" for several days, and have pursued the usual avocation of horse trading and fortune telling in an apparently harmless fashion. They held a State license under the recent Act of Assembly to engage in the nomadic life of the gypsy.

CENTERING IN THIS REGION

For John W. Boileau of Pittsburg and
Represents Thousands of Smaller
Maps and Twenty Years Expert
Handling of Coal Lands.

The most notable map ever drawn up in the pursuit of the coal and coke business in its many years of existence is the comprehensive one that is being completed in the offices of James B. Hogg, the civil and mining engineer, of Connelldale. The map is for the private use of John W. Boileau, the coal expert of Pittsburg, who has handled the sixty million dollar coke merger so successfully. Into the lines of the map which covers over 9,000 square miles of rich coal territory, has gone thousands of dollars worth of work accomplished on smaller mappings, and the result of 20 years of expert study of the coal and coke situation on the part of Mr. Boileau. He has turned up all his valuable mappings over to Mr. Hogg, who has supplemented the work by those maps and tracings from his own wide experience in the business.

The title of the map indicates its extent and its value to any coal or coke man. The legend is "Map made for John W. Boileau, showing the Pittsburg coal measures within the valleys of the Monongahela and Ohio rivers in Pennsylvania, Ohio and West Virginia, by J. B. Hogg, Civil and Mining Engineer."

"Mr. Boileau's work has assumed such a magnitude in the handling of coal lands," said Mr. Hogg, "that it became absolutely necessary for him to have a quick and concise, as well as entirely complete, reference by which he may compare the value of different coal fields and their means of reaching the markets, that he commissioned me to make this large map. It is compiled from a great mass of different maps which Mr. Boileau has collected in his notable career as a coal expert for perhaps 20 years. The map shows the streams, areas of fields and their relations to the streams, trolley lines and steam railways, and also shows the relation of the crop line of coals, the Pittsburg in Pennsylvania, and the Freeport in West Virginia."

The map depicts the territory described by a quadrangle within lines through Pittsburg on the north to Weston, West Virginia, on the south, and from Sistersville, Ohio, on the west to the Maryland State line on the east. Physically, geographically and economically it pictures the resources of an area 108 miles long and 84 miles wide, or over 9,000 square miles of mineral wealth of the highest quality. It is scaled to one mile to the inch and the map, in sections, measures 7x9 feet in dimensions. The work on the map has been in the charge of B. F. Heffacker, of Mr. Hogg's force of engineers and draughtsmen, for over two months and, night on it, frequently having as many as four men assisting him.

The map will be taken to show the different fields and holdings, and while a very valuable general map, and one almost impossible to duplicate without much time and great expense, is also a beautiful exposition of the art of the expert mapper.

Engineers who know of the scope and completeness of the map say that it would be practically impossible of duplication as thousands of smaller maps have gone into its making. It

COMPLETING THE GREATEST MAP.

(Continued from First Page.)
Is a distinct compliment to Mr. Hogg that when Mr. Hollman concluded to embody his almost priceless records into a map he brought it to Connellsville to Mr. Hogg's office.

As an illustration of its value one may suppose that someone has been offered several coal tracts in the area now covered by this one map. Under the old collection of many separate maps it would be difficult, without much investigation and weighing of conditions to arrive at the conclusion of which tract, for certain reasons, would be the most desirable for the investor. In point of quality of vein, analysis of coal, location of crop lines and streams, and freight facilities for economic development or operation. With this map showing all these things from a comprehensive standpoint as each field relates in every particular to the other ones these things are adequately shown and the decision one to be quickly reached.

MRS. C. H. MACKAY TAKES HELM OF EQUAL SUFFRAGE.

If the equal suffrage movement does not reach aggressive and militant proportions in the United States in the next few months it will not be the fault of Mrs. Clarence H. Mackay. Since her return from abroad Mrs. Mackay has taken up the cause in earnest and is prepared to spend a share of her larger fortune to spread the propaganda of votes for women. She has opened headquarters in the tower of the Metropolitan life building, New York City, and has installed a force of clerks and secretaries to send out printed matter and start the full campaign of the suffragists. Mrs. Mackay declares it will be the most aggressive fight for suffrage since the days of Susan B. Anthony.

FORGOT ONE THING.

Overight of the Man Who Tried to Make Eggs.

A New Jersey man felt that he had at last invented a process for manufacturing eggs. He experimented until he discovered the component parts of a natural egg—the milk, flour, phosphorus and all the rest—and hastened to secure them. Then he announced to the druggist whom he patronized for his chemicals that all he needed now to insure success was cold weather, when eggs would sell for 50 and 60 cents a dozen. December saw the looked for period arrive, and the inventor's new copper kettle was set over the flame of the kitchen gas range. The mixture was placed in it, and the scientist proceeded to operate with a blowpipe. The blurb, the phosphorus and the rest of the chemicals stood it as long as they could and then expressed their feelings in a mighty explosion. The neighbors sought their collars, while the glass in windows and doors fell in splinters.

Discussing his failure with the druggist and other friends, among them Congressman Gardner of New Jersey, the puzzled alchemist said for the tenth time: "Perhaps I forgot to include some essential in my formula."

"Yes," said Mr. Gardner dryly, "you did forget something."

"And do you know what it was?" eagerly queried the experimenter.

"I certainly do," said the congressman.

"Tell me—tell me what it is and fortune will be assured to us both."

"A hen—just a common, ordinary hen," replied the congressman from Egg Harbor unfeelingly. —National Magazine.

CHILD COVERED WITH HIVES

Tormented Two Months—It Itched and Irritated and Scratching Made It Worse—Little Sufferer in Terrible Plight—Several Treatments of No Avail—But at Last the

DREADFUL DISEASE IS CURED BY CUTICURA

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it, although we did not know it. By scratching she caused large sores which were irritating. Her body was a complete ruin but it was worse on her arms and back. We employed a physician, who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her hot bath daily with Cuticura soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. I recommend the Cuticura Remedies for all skin diseases and give them my greatest praise. Mrs. Geo. J. Fritchhoff, R. F. D. 1, Warren, Mich., June 30 and July 13, 1908."

He would scratch until the blood would run and he was like a raw piece of meat. I used different kinds of things but each kind made it worse until I read of the Cuticura Remedies, and one can of Cuticura Soap and one box of Cuticura Ointment cured him like magic. I would not be without it in the house and I have recommended it to all my friends. Mrs. J. D. Maxwell, 6th St., Woodside, Long Island City, N. Y., 1908."

MONONGAHELA, Pa., July 13.—Negotiations were closed yesterday for over 1,000 acres of coal land in the Ten-Mile Creek field, Washington county, in which the Marianna and the Pittsburg-Butte operations are conducted. The land was bought by the Pittsburg-Butte Company to fill out property lines. The price, while not stated, is said to be high, as coal in that district is of a fine quality.

The purchase coming so soon after the sale of nearly five times that acreage by the Pittsburg-Butte Company to the Jones & Laughlin Steel Company, is explained by President J. H. Jones says the land sold by his company was not located conveniently for operating from the Marianna shafts, while yesterday's purchase can be worked from the present big shafts.

POLITICAL ADVERTISING;
OBJECTIONS FILED.

"That we are free to admit that we think the candidates spent excessive amounts even in advertising," says Editor Cooke in the Uniontown Standard.

"Respectfully referred to Editor Snyder for immediate objection," says Editor O'Donnell of the Uniontown Herald.

Objection filed with just as much promptness and a great deal more energy than Judge Van Swearingen displayed when he declined to let Judge Ingraham, from the Rinehart zone, hear the Umbel audit proceedings.

We have been preaching the value of political advertising for the past twenty years, and it has been one of the hardest and most thankless jobs we ever undertook, chiefly because it lacked the sympathy and support of the publishers themselves.

In the old days when country journalists were confined to tinny sheet weeklies which came out on day or another it was a common custom to write free "puffs," or as a friend of ours not inaptly called them "bluffs," for everybody and especially for persons running for office. The primary candidates sometimes inserted a small card, called by courtesy an announcement, and the price of this was always held to include columns of fulsome flattery and immunity from the breath of aspersions.

The result of this situation was that the political interests saw nothing of value in the cheap advertising they got. It was cheap in every sense, it cost but little and its effectiveness was nil.

Political advertising, from the standpoint of both the publisher and the advertiser, was at its lowest possible ebb.

But as the county grew bigger and the work of making a personal canvass became more difficult and more expensive, it was suggested that the daily newspapers, which had now in a large measure supplanted the weeklies, reached practically all the voters, and that the candidates could speak to the public every day through the columns of those papers at much less the cost in actual cash of carrying their messages in person, to say nothing of the saving in time and the wear-and-tear of the human system and its habits.

Shrewd politicians, like shrewd business men, were not slow in seeing their material interests, and thus the business of political advertising grew to liberal proportions with the encouragement of progressive publishers and in spite of the restricted views of others.

It is true the judicial candidates at the Democratic primary spent liberal sums of money for political advertising, but in so doing they saved themselves the work and hardship of a costly personal canvass into every nook and cranny of the county. The newspapers did the canvassing for them. As canvassers we insist that the newspapers can't be beaten for economy and efficiency.

We will not say that a candidate cannot spend too much money in political advertising, because he sometimes pays the highest prices to the poorest advertising mediums; but we do say that within reasonable limits, and we place those limits at a right smart step beyond those of the last primary campaign which Editor Cooke thinks were "excessive," we are convinced and we believe the records will show that political advertising is highly profitable.

One great trouble about the successful conduct of country newspapers is the unbusinesslike methods of many otherwise excellent publishers.

THE NEWSPAPERS AS COMMUNITY BUILDERS.

The foresighted Connelville and Uniontown advertisers are going in heavily for the midsummer business of the coke region with an intelligent disregard for the ancient superstition that the only time to advertise is when the public wants to buy.

The paper that reaches the people is the paper that builds the business to the advertisers, and the whole town shares indirectly in the drawing powers of a widely circulated newspaper.

The fate of every community is more or less inevitably bound up in its newspapers. If the latter are enterprising and public spirited, if they are perceptive boomers and intelligent directors of public opinion, they will make the town go in spite of its ever-present mossback contingent. The opportunities of some towns are greater than those of others, but within their possibilities there is no agency that can accomplish more for their advancement than an active and earnest press.

Out the capacity of the local paper or accomplishing these desirable results is in a very large measure dependent upon the support accorded it by the business interests. Advertising support is the chief support, but advertisers should rid themselves of the notion that this support is in any degree a work of charity.

The live newspaper always gives the live advertiser value received.

The right of the defendant to a speedy trial has been affirmed with emphasis by Judge Van Swearingen. The decision is not only within the law, but

It stands firmly upon the Constitution. Some defendants, however, do not want a speedy trial. They are like the Irishman who, when assured by the court that he would get justice, replied, "That's what I'm afraid of, your honor."

Altoona is reported to be moth-eaten, but not from age or inaction.

Professor Francis Reed House has been courting a long time in Westmoreland county without having been able to gain the entire favor of the Blind Goddess. The testimony adduced at the former hearings indicated that the real culprit in the crime was the wicked Greensburg cocktail, with the Professor as an accessory before the fact. A verdict to this effect would perhaps best conserve the interests of justice.

There has been a great deal of blowing about Panama, but the last blow was the most serious.

"Aunt Rebecca" Faust, a descendant of a soldier in Braddock's army, is an inmate of the Fayette county almshouse, and an effort is being made to raise sufficient funds to obtain her release and provide for her support upon her native hills until she dies. It has been suggested that the Daughters of the American Revolution should lend their aid to this charity, but if "Aunt Rebecca" is a descendant of that Tom Fawcett who is credited by local history with having shot General Braddock because of fancied injuries at the hands of the latter the D. A. R. probably feels that the case is not one which has claims upon its consideration.

Heaven's electric energy is seldom helpful to a modern electric plant.

Scotchdale is suffering already from a bad water supply. In these days of timber devastation there is not much reliance to be placed in mountain water at prices from small streams.

The independent coke operators will hold a picnic. It will perhaps partake of the nature of a farewell reception.

It seems to have required the decision of a court to establish the rule that a railroad has the right to charge for excess baggage. Some people do not seem to know they are being overcharged. There is no reasonable reason why the railroads shouldn't charge for all baggage that is carried in a special car.

Leon Ling is reported to be in Budapest. So is Peter Rutbek.

Despotism Turkey has become a constitutional monarchy. The Shah of Persia is about to be deposed by the Nationalists. The Czar of Russia will eventually have to bow to the demands of modern civilization. If Nicholas is wise he will see the People first.

It is difficult to understand how the box offices of baseball escaped the tariff bill.

The Bensontown Blackmailer says The Courier is all the things it has called The Standard, that The Courier has no character to lose, and other must things too numerous to mention. You're another, and a double-dyed one, you Sassy Thing!

The Uniontown Herald has an unwelcome mean disposition.

When we ordered a paper baler, The News had not bought one. The agent who sold us went from The Courier office to The News office, told them there that we had given him an order for the machine, and immediately got their order. "We lead, others follow."

In its efforts to discharge malcontents West Point and Annapolis should be careful not to encourage murderers.

Bigamist Johnson is probably a near relation of Too Much Johnson. From a matrimonial point of view he seems to have been Not Enough Johnson.

The Leisnering man who wanted to borrow pepper got a peppery reception.

The Chinese are not at all inventive, but they are remarkably clever imitators. There are some Chinese newspapers in this neck of the woods.

The Official Organ wants to get busy and spend the Centennial surplus. This sounds like an official deliverance.

The testimony in the Thaw hearing develops the fact that Harry was sane enough to convert his law from a Democrat to a Republican. If Harry is discharged he ought to come back to Pittsburgh and go into politics.

The Wrights won't aviate until the wind is just right, and they usually make a short flight. They evidently want to fly right and light right.

Bitter Wine promises to be a bitter dose for the retailers.

The brakeman whose duty compels him to ride on top of the box car should never overlook the fact that he must always be a dodger when he approaches an overhead bridge. He's something of a goat if he built it.

WARM
WEATHER
BARGAINS.

Goods here and plenty of them that we want to get rid of. Marked them at little prices to induce you to buy them. Something as an extra inducement to coax you out on a shopping tour these warm days. Though if you do venture out you'll find this store cool and comfortable. Light and airy and lots of room and a pleasant rest room that is at your service at all times.

Children's Colored
Dresses at 75 Cents.

Mostly dark colors and sizes 6 to 12 years. Some of these sold at \$1.00. Some at \$1.25 and some at \$1.50. You can take your choice for 75c. Save you lots of sewing—buying these days.

Parasols at Half-Price.

All that we have left at exactly ONE-HALF original prices. That means an opportunity to buy a parasol for from \$1.00 to \$2.50 and \$3.00 that is a beauty and sold for double that price.

Silk Dresses at \$10.

These sold for \$17.00 and we considered them cheap at that price. The material in each dress if bought wholesale by the piece would cost more than \$10.00. Pretty Foulard Silks of best quality and well made. Only about a dozen of these for you to choose from but not a bad color or pattern in the lot.

Children's Colored
Dresses at 1/3 Off.

Sizes 2 to 6 years. All these pretty little dresses we have been showing at one-third less than the original prices. Mostly light colors, and mostly dresses that were priced from \$1.00 to \$3.00. Most of these on tables where you can examine and see for yourself what a bargain they are.

Keiser Neckwear
at 25 and 50 Cents.

Some that should have been delivered to us early in the season. But at these prices they will sell as well now as earlier. Dainty creations that have a touch of handwork that no machine can imitate.

Ladies' Jacket
Suits at \$10.00.

Does that price interest you? Wouldn't the skirt alone be worth pretty near the amount? Couldn't you get that amount of good out of the jacket, as a separate jacket on cool evenings? We've about a dozen such suits, brown and tan and blue. Out on a rack and going to sell them to the first comers.

Shirt Waists \$1 Each

More of these \$1.00 waists on the counters this week. Pretty near every size and a half dozen different styles to choose from and not a waist in the lot but is worth at least a half more than this price.

The Remnant Tables

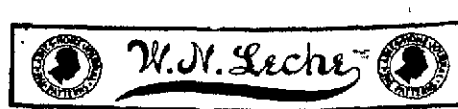

Every short length in the store is hurried to these remnant counters and just now these remnant counters are full of short lengths that are worth looking after. This week the short lengths in dress goods and the silks are especially plentiful and you'll find bargains among these that you cannot afford to overlook.

Lots of bargain talk but it's about goods that we want to get rid of and for that reason we have made prices that make it worth your while to investigate.

EVELYN APPEARS FOR THE STATE.

Harry Thaw's Actress Wife
Testifies at His
Hearing.

TESTIMONY AIDS THAW'S CASE

Pittsburgher's Fight for Release From
Matteawan Asylum Depends To a
Large Extent Upon Mrs. Thaw's
Testimony.

White Plains, N. Y., July 14.—
Evelyn Nesbitt Thaw, as pretty as
ever, petulant and school-girlish and
dressed in the familiar blue which
she effected so much during the trial
of her husband, Harry K. Thaw, for
the murder of Stanford White, was
on the stand for more than an hour
before Justice Mills in the supreme
court here, subpoenaed by the state
in its fight to keep Thaw in the
asylum for the criminal insane at
Matteawan.

But for the absence of the dainty
Knox collar, which Mrs. Thaw wore
so much during both of the murder
trials, she appeared much the same as
she did when Jerome was trying to
send Harry Thaw to the electric
chair. She is a little more mature,
perhaps, but she showed the same
girlishness that won sympathy for her
while testifying heretofore, and at
times she was petulant to the extent
of tears.

Testimony Favorable For Husband.
And, though called by the state, in
an endeavor to prove Harry Thaw in-
rational, what Roger Clarke, the
deputy attorney general, drew from
her lips created rather a favorable im-
pression for her husband.

Upon the ultimate outcome of
Evelyn Thaw's testimony the state's
fight largely rests. Mr. Clarke tried
hard to get her to admit that Thaw
had threatened her life when she vis-
ited him on one occasion, after his
commitment to Matteawan. But, turn-
ing appealingly to the court, she re-
peatedly refused to answer his ques-
tions, and after a clash between coun-
sel Justice Mills ruled that he would
hold the conversation in which the
threat was supposed to have been
made a confidential one between hus-
band and wife, but if privileged until
the state presented proof to show
that Daniel O'Grady, the New York
lawyer, who was present at the time,
was not then acting as counsel for
both Mr. and Mrs. Thaw.

Reluctant to Answer Questions.
When Mrs. Thaw first entered the
courtroom and made her way to the
stand there was a buzz of excitement
and a ripple of comment, but she
showed little concern. She was re-
luctant to answer Mr. Clarke's ques-
tions and had to be instructed to do
so a number of times by the court.
The tears came to her eyes once when
Justice Mills ruled against her, but
she turned to him and said petulant-
ly:

"I guess I will have to obey, for I
cannot afford contempt proceedings or
go to jail. My husband is not paying
me anything now and I haven't enough
money to hire counsel."

Perhaps the most favorable bit of
testimony for Thaw was that of Frank
Toomey, his bodyguard for five or six
months at Matteawan. He said that
Thaw had exhibited no irrational
tendencies during that time. He ad-
mitted that Thaw had severely criti-
cized the management of the institu-
tion at times and had used harsh
names in referring to some of the
physicians in authority. But he added
that many little suggestions made by
Thaw were acted upon, greatly to the
improvement of the management of
the institution.

TROOPS HURRY TO TEHRAN.

Shah's Forces Go to the Relief of Persian Capital.

GOSSACKS UNDER HEAVY FIRE

Constitutionalists Are Determined That a Real Constitution Must Be Granted by the Shah and Their Forces Are in Possession.

London, July 14.—A special dispatch from Tehran says that the Nationalists attacked the Gossacks in the barracks and artillery square for two hours last night without succeeding in capturing the positions. The combat was fiercely waged, the Gossacks using shrapnel. A body of the Shah's troops, a dispatch says, is coming from Shahrabad for forced marches to the assistance of the Royalists.

There is little sympathy in England for the Shah who, according to reports from Persia, stands a good chance of losing his throne. Great Britain, in conjunction with Russia, consistently urged him to re-establish the constitution, the failure to do which has placed him in a present uncomfortable position.

Great Britain's further action will be confined to strictly safeguarding British interests. It is believed that Russia will act similarly and unless foreigners in Tehran are considered to be in danger will not allow her troops to interfere in any way in the present crisis.

Tehran, Persia, July 14.—Recent events in Persia have been reported in Persia. The Constitutional forces, the advance of which on Tehran for a time was not considered serious, are now in possession of the greater part of the city, which they entered without encountering any organized resistance.

While Bardsrud and Sipahdar, the leaders in the movement, concentrated the attention of the Royalists by demonstrations to the west, a strong body of Nationalists and Bakhtiari made their way unnoticed around to the north, from which point the capture of the capital was not difficult. The guards at the northern gates were disarmed and the invaders marched in, the foreign section leaders taking up their quarters in the old Mellis building. This gives the Nationalists command of the city with the exception of the artillery square and the drill ground adjoining.

The Royalists are badly situated to make further resistance and the Gossacks, under command of Russian officers, remain outside the city, entirely cut off from their comrades in the artillery square.

The strictest discipline is being maintained by the Nationalists, who are placing guards at the gates and other points as the Royalists are disarmed.

PRAISE TARIFF BILL

Steel Corporation Officials Have Kind Words For New Measure.

New York, July 14.—Both William E. Corey, president of the United States Steel corporation who arrived from Europe and Judge Elbert H. Gary, chairman of the corporation's board of directors, who sailed for France, had a kind word to say for the results of the tariff revisers of force.

Mr. Corey said that in his belief "almost everybody is satisfied with the tariff bill as it now stands and predicted that the result of the bill's passage would be a "speedy acceleration of prosperity and a long era of good times."

Judge Gary was equally optimistic. "The new bill should be generally satisfactory," he said, "and President Taft, the cabinet and congress are entitled to great credit for their successful work. The revision has been conservatively downward. Business will improve rapidly from now on and steel will come into its own again with new high records."

CROWD WATCHES SHOOTING

Ship's Carpenter Killed by Detective, Climax of Long Trouble.

Toledo, July 14.—Charles J. Dresser, aged thirty-eight, a railroad detective, shot and instantly killed William Chatterton, aged thirty-nine, a ship's carpenter, last night in view of a crowd crossing Cherry street bridge.

There was trouble of long standing between them and Dresser says that Chatterton had threatened to kill him and had made disparaging remarks about Dresser's wife.

The shooting occurred at a dredge on which Chatterton was working. Dresser asserts that Chatterton started to attack him with a club but a version by eyewitnesses is that Dresser shot first.

SERVES WRIT IN TREE TOP

Woman Tries to Escape Subpoena, Sheriff Follows.

Kittanning, Pa., July 14.—At the top of a cherry tree Sheriff Chambers Frick caught Mrs. K. Crawford Busard when she went to serve a divorce subpoena on her.

She failed to respond to the sheriff's request to come down, consequently he climbed to the top of the tree and served the writ on her there.

MEDICOS BEAT LAWYERS.

Disciples of Blackstone Snows Under Lawyers in Somerset.

SOMERSET, July 13.—Monday afternoon the most interesting game of baseball of the season was played at Edgewood Park between two teams representing the lawyers and doctors of Somerset. The score was 12 to 1 in favor of the medicos, but the attorneys accepted their defeat gracefully and state that they will meet the doctors again. The players on the doctors' team seem to have played ball more recently than the attorneys.

At the conclusion of the game a number of prizes were awarded to the various players. Prizes were given to the first player on each team to make a safe hit, the first player to make a two bagger, the first man to kick on the umpire's decision, the first player hit with the ball above the belt, and many others. The proceeds of the game, which amounted to probably \$100, were given to the Ladies' Aid Society.

ENTERS SUIT FOR \$15,000 FOR INJURIES

Mrs. Anna Calhoun Wants \$10,000 And Her Husband \$5,000—Other Court Routine.

UNIONTOWN, July 11.—Anna Calhoun and husband Andrew Calhoun yesterday filed a suit for \$15,000 damages against the West Penn Railway Company for injuries the former received December 18, 1907, when a street car ran through the dwelling which in New Haven, Miss Calhoun sets forth that when the car struck a building on the east side of Main street New Haven she was thrown from her seat to the floor and was rendered unconscious receiving permanent and serious injuries to the head, back, shoulder and spine. She alleges that the injuries confined her to bed for several days, that her nervous system was greatly affected and that she has been advised she will never recover from the effects.

Andrew Calhoun claims he suffered from the loss of his wife's services and is damaged by reason of her incapacitation being compelled to employ servants and expending a large sum for medicine and treatment.

The damages set forth are \$10,000 for Anna Calhoun and \$5,000 for Andrew Calhoun. Johnson & Rush are the attorneys for the plaintiff.

A divorce was granted yesterday to Teresa Meli from Anselmo Velli. They were married October 9, 1901, in Toulon, France, and came to the United States July 29, 1907. She lived at West Haven for about two years where the respondent is alleged to have beaten his wife frequently using a poker as a weapon and often threatening to shoot her. He left West Haven February 17, and has not been seen or heard from since.

August Albert Baughman was granted a decree of divorce from Mir the Daughman. They were married in Morristown October 1, 1906, but on June 6, Mrs. Baughman disappeared from home and has not been located.

The next day after the marriage the respondent informed her husband that she would not live with him, as her parents forced her to marry him. The woman also told a neighbor that she was married only to please her parents and that she would not stay with her man long. The plaintiff claimed that he was not aware of the fact that the woman was coerced to marry him by her parents.

A divorce was refused Joseph Vlas from Anna Vlas on the grounds that all the causes were committed previous to the arrival of the couple in America.

Attorney A. P. Austin in behalf of the Pittsburg Brewing Company presented the following record of a change in agents: Peter Trojan Anton Zink William Moore Joseph Kucera, Max Rosenberg and Harry Rudolph have resigned and their places have been filled by Peter Pustina Andy Mikorek, William Storey Andy Burlock, Lou Rosenberg, John Bullock and John Edelman. William L. Miller was appointed agent at Indian Head and Rogers Mills.

CAN LIMIT BAGGAGE.

Railroads Charge For Excess Decided Perfectly Legal.

WASHINGTON, D. C., July 14.—All discrimination is not forbidden by the act to regulate commerce, but only such discrimination as is undue, was a decision of the Interstate Commerce Commission today in the case of the Herbeck-Denier Company against the Baltimore & Ohio and Pennsylvania railroads in which the complaint maintained it was illegal to carry free 150 pounds of baggage for each passenger because complainant's traveling men who carry 1,250 pounds of baggage each are charged excess fare for all over 150 pounds.

It was urged that when a railroad charged the same amount for carrying a passenger without baggage as it charged a passenger with 150 pounds of baggage it was discriminating against the former in violation of law.

The commission held that the discrimination cited was not unlawful and that the railroads had a right to stipulate the amount of baggage carried free for each passenger.

Oil Excitement.

Excitement is running high near Rea station, Washington county, on the Washburn over an oil strike on the T. M. Johnson farm.

BRYAN WRITES TAFT

Urges President to Have Senators Elected By People.

Lincoln, Neb., July 14.—William J. Bryan has addressed a letter to President Taft asking him to allow the people to vote on popular election of senators.

Mr. Bryan says: "President Taft—Now that the states are going to vote on the ratification of the amendment specifically authorizing an income tax why not give them a chance to vote on an amendment providing for the election of United States senators by popular vote? In your speech of acceptance you said that you were personally inclined to favor such a change in the constitution. Would this not be an opportune time to present the subject to congress?"

Two constitutional amendments one authorizing income tax and the other providing for the popular election of senators would make your administration memorial and pledge you whatever assistance I can render in securing the ratification of these amendments.

DOWN COMPULSORY BILL

Lord Roberts' Scheme to Increase English Army Meets With Defeat.

London, July 11.—The house of lords last night by a vote of 123 to 101 decided not to proceed with the national service bill which Lord Roberts introduced in the house. This bill provides for the compulsory service in the territorial army of all male citizens between the ages of eighteen and thirty.

The decision of the house of lords was taken at the advice of the unionist leaders who considered it inadvisable to interfere with War Secretary Lansdowne's scheme for the reorganization of the territorial forces until a change of government should make it possible to introduce some such idea as proposed by Lord Roberts.

Roseben Is Retired

New York, July 14.—Roseben once the champion race horse of the American turf and believed by many to have been the greatest sprinter in the world will race no more. David Johnson, his owner, has decided to ship him to the big farm of James W. Vadenworth in Geringe Valley where he will pass the remainder of his days grazing.

Governor Johnson Indisposed

St. Paul, Minn. July 14.—Governor John A. Johnson is ill at his apartment in the Aberdeen hotel and all his engagements for the week have been cancelled. Governor Johnson has undergone three operations for appendicitis and intestinal troubles and his present indisposition is due to a recurrence of his old troubles.

IT IS CREATING MUCH EXCITEMENT.

SCORES OF PEOPLE ARE PRAISING IT TO THE SKIES

The following article recently appeared in the Zanesville O Signal. "Two reporters have heard several of the leading doctors of our city say that Root Juice is certainly a great medicine as a number of their patients after using it a short while for chronic stomach liver and kidney troubles were rapidly improving. One broad minded doctor was heard to say in the presence of a number of people that he prescribed it to his wife for a chronic liver trouble and from a short use of it is simply astonishing. The remedy is doing so much good here in Connellsville that it is the common talk of the city. People from every walk of life are praising it and as a consequence the demand for the Juice is so great that it is hard to keep it in stock. The extraordinary merits of Root Juice have been proved by the experience of home people whose word can not be doubted. Those who have investigated have found every statement made in this paper in relation to the remedy as true as gospel. Scores of people are calling at the drug store daily and praising the wonderful good it is doing for themselves or some member of the family. Mr. J. M. Monroe who is well known here said he has spent over four hundred dollars for medicine and treatment for his stomach trouble of long standing without benefit until he started to take Root Juice, but that one bottle made such a change in his condition for the better that even his friends were noticing it. Mr. Jesse Bennett said both my boy and self were badly afflicted with rheumatism when we commenced to take Root Juice. In fact, I was unable to get out of bed but after using it a while we are now entirely relieved. I am now able to get around and attend to my work without a particle of soreness or pain and my boy no longer complains the hours. The Root Juice people have hundreds of testimonials from well known people all over the state. The remedy is beginning to create much talk here in Connellsville as several that have been using it a few days are praising it very highly. Crowds are going to Graham & Company's drug store to learn of the great discovery."

AVERAGES GIVEN FOR HALF SEASON.

Myers Led Team With Stick
and Tiffany in Field;
Other Figures.

CALHOUN BEST RUN GETTER

Had Highest Scoring Average Con-
sidering Number of Games Played.
Calhoun Also Led in Stolen Bases
and Hagan With Sacrifice Hits.

The unofficial averages of the Cok-
ers for the season which closed July
6 show Myers leading the team at
bat, Tiffany, since released, best in
the field, and Calhoun the premier
base stealer. Hagan heads the sac-
rificers and Cotter the twelfth.
Only one Coker was in the .300
class at the close of the half-season.
Dutch Myers hit for .321 in 51 games,
a remarkably good average. Man-
nager Alex Sweeney was well within
the charmed circle as long as he was
only hitting in the pinches, but sev-
eral days regular work resulted in
him dropping below the .200 mark.
At that the wise owl at the head of
the Cokers is lending all the rest
save Myers, with a .259 record.

The Cokers are well bunched in
the hitting department, most of them
ranging between .225 and .250. Like
Francis, who was in a bad slump
with the willow early in the season,
picked up considerably and was lam-
inating them out at a .256 clip when
the half-season was finished. Up to
the time he left the team Tiffany was
hanging at the rate of .257. Kid
Hagan is slugging .352 and Make-
peace, in five games, an even .256.
Others in the .200 class are Frailty,
341; Gilligan, 210; Calhoun, 207;
Chip Francis, 225 and Summers, 207.

In the field, with greater opportu-
nities for chances, Tiffany led the
team up to the time of his departure,
gathering them in at the initial sack
at a .931 rate. The fielding averages
of the team are only fair. In total
errors like Francis holds the prize
with 19, and Gilligan 13, but these
count for little. A remarkable fea-
ture in the fielding records is the to-
tal number of chances Gilligan had,
nearly 300. This is an evidence that
considerable ground was being cov-
ered around second base.

Calhoun, Myers, Gilligan and Frail-
ty are easily the best in base steal-
ing. The sacrifice hits are fairly
evenly divided, Hagan holding the
repute in this department because of
his advantage in batting second.

Among the pitchers Jack Cotter is
early the star. Silex is coming to
the front nicely in spite of a bad
start, while Elmer Cannon and
Johnny Yoedt both did better at the
opening of the season than towards
its close. The figures follow:
